

Learning Care Group Assistant Teachers are nurturing, fun-loving professionals who are constantly stimulating emotional, intellectual and social growth in the children by assisting with the implementation of our play based curriculum.

Our Assistant Teachers keep the children safe on a daily basis by adhering to and complying with all state licensing requirements. They communicate daily with parents and other staff members to keep everyone apprised on how the educational goals of the children are being met.

Our Assistant Teachers are rewarded for their patience and compassion with hugs from the children and praise from the parents every day!

Join the Learning Care Group family, where we offer a loving and inviting atmosphere for our children and families every day. By building strong relationships with our families, our parents trust our dedicated staff to ensure a life long love of learning for their children.
