

Learning Care Group Food Specialists are dependable and caring individuals who understand that important responsibility of contributing to the future of tomorrows' leaders.

Our Food Specialists keep the children healthy on a daily basis by planning and preparing nutritionally balanced meals and snacks for children and staff. They communicate daily with parents, other staff members, children and regulatory officials to keep everyone apprised on how the nutritional goals of the children are being met.

Our Food Specialists are rewarded for their nurturing and compassion with hugs from the children and praise from the parents every day!

Join the Learning Care Group family, where we offer a loving and inviting atmosphere for our children and families every day. By building strong relationships with our families, our parents trust our dedicated staff to ensure a life long love of learning for their children.
